Important Details About Your HRA from PEBP and Via Benefits

You are receiving this notification because you have \$7,000 or more in your HRA account.

How does the Medicare Health Reimbursement Arrangement (HRA) limit impact you?

HRA balances of more than \$8,000 are capped annually on May 31st. This means HRA funds may accumulate throughout the year; however, on May 31st of each year any HRA balance which exceeds \$8,000 will be returned to the Plan and will not be available for reimbursement.

For example, if you have \$10,000 in your HRA on May 30th, on May 31st your HRA balance will be \$8,000 and \$2,000 will revert to the Plan. Once funding for balances over \$8,000 are removed from the HRA they cannot be reinstated.

Any eligible expenses that retirees want to apply to their HRA balance before May 31st should be submitted to Via Benefits (not PEBP) by May 15th or earlier to allow time for the claim to be received, reviewed, and processed. It is the retiree's responsibility to ensure that all necessary supporting documentation is submitted with the initial claim.

What if my balance is Less Than \$8,000 on May 31, 2024?

If you have less than \$8,000 the balance in your account will not be affected.
